THE SPHEREOTYPE. THE SPHEREUTIES.

The late-t and by far the most important improvement in Phetography is the recently patented picture known as the SPHEREOTTER, which is not only new and unlike any of its predecessors, but greatly superior to all. The Sphereotype is proof against time, Air and water, and for richness of tone, warrath of expression and distinctness has to equal—in fact the illusion is such that the picture, or image, seems suspended in air, entirely independent of the back ground
